

# How to Install the Child Safety Device for Sundance Roller Shades

These Child Safety Tension Devices for Roller shades are fully compliant with the updated safety standard, ANSI/WCMA A100.1-2022, as established by the Window Covering Manufacturers Association (WCMA) in coordination with the U.S. Consumer Product Safety Commission (CPSC).

Designed to meet the latest child safety requirements, these devices help prevent cord-related hazards and ensure safe operation in both residential and commercial environments.
